Group Coaching

This is an exciting **NEW** program. If you thrive while learning in community, this could be for you. The result you can expect as you make your way through this program is to gain clarity on your current personal path and to gain the skills to move forward. If you are looking to grow in community during these uncertain times, and to create your life's direction and the skills to transform your life, keep reading. The program is unique in that the education portion is research-based and gives you prime worksheets for each session to extend your learning. You will have the opportunity to learn the topic of the week on your own time on recorded video. It is at this

time that you will receive your worksheet for the week. I will be teaching those sessions. You will then have an hour in a scheduled live Q&A with me on Zoom where you will learn from the answers to your own questions & those of others. This will occur weekly 3x a month. Additionally, there will be a private Facebook Group where you will learn from others and I will check in for more comments on the 4th week of the month. The cost is \$450 Cdn plus tax per month, paid monthly.

To recap:

- Each week for 3 weeks in the month you will have a video session taught by me & a great worksheet to cement your learning
- You will also have a weekly Q&A session where I will coach those who have questions from the session they are working on. We all get to hear & learn from each other
- On the last week of the month I will be in the private Facebook Group to answer any further questions you may have on the month's learnings

So if you are looking to increase your life satisfaction this might be for you!

This small group gets to be a part of each other's lives for 6 months at a time. They find commonalities and rich ways to support one another. Individual Coaching

This option allows people who are committed to their coaching to have individual attention and sessions that are catered to their particular needs. Individual coaching is a personalized approach for what would make the most difference to their growth. Another benefit is the privacy of learning that is important to many people. Most people choose to have their coaching weekly by Zoom or phone but bi-weekly works as well. The cost is \$3000 Cdn plus tax for 12 sessions, payable upon registration.
